# **INFORMED CONSENT**

## **DOCTOR-PATIENT RELATIONSHIP IN CHIROPRACTIC**

### **CHIROPRACTIC**

It is important to acknowledge the difference between the health care specialties of chiropractic, osteopathy, and medicine. Chiropractic health care seeks to restore health through natural means without the use of medicine or surgery. This gives the body maximum opportunity to utilize its inherent recuperative powers. The success of the chiropractic doctor's procedures often depends on environment, underlying causes, physical and spinal conditions. It is important to understand what to expect from chiropractic healthcare services.

### **ANALYSIS**

A doctor of chiropractic conducts a clinical analysis for the express purpose of determining whether there is evidence of Vertebral Subluxation Syndrome (VSS) or Vertebral Subluxation Complexes (VSC). When such VSS and VSC complexes are found, chiropractic adjustments and ancillary procedures may be given in an attempt to restore spinal integrity. It is the chiropractic premise that spinal alignment allows nerve transmission throughout the body and gives the body an opportunity to use its inherent recuperative powers. Due to the complexities of nature, no doctor can promise you specific results. This depends upon the inherent recuperative powers body.

### **DIAGNOSIS**

Although doctors of chiropractic are experts in chiropractic diagnosis, the VSS and VSC, they are not internal medical specialties. Every chiropractic patient should be mindful of his/her own symptoms and should secure other opinions if he/she has any concern as to the nature of his/her total condition. You doctor of chiropractic may express an opinion as to whether or not you should take this step, but you are responsible for the final decision.

### **INFORMED CONSENT FOR CHIROPRACTIC CARE**

A patient, in coming to the doctor of chiropractic, gives the doctor permission and authority to care for the patient in accordance with the chiropractic tests, diagnosis and analysis. The chiropractic adjustment or other clinical procedures are usually beneficial and seldom cause any problem. In rare cases, underlying physical defects, deformities, or pathologies may render the patient susceptible to injury. The doctor, of course, will not give a chiropractic adjustment, or health care, if he/she is aware that such care may be contraindicated. Again, it is the responsibility of the patient to make it known or to learn from healthcare procedures whatever he/she is suffering from: latent pathological defects, illnesses, or deformities which would otherwise not come to the attention of the doctor of chiropractic. The patient should look to the correct specialist for the proper diagnostic and clinical procedures. The doctor of chiropractic provides a specialized, non-duplicating health service. The doctor of chiropractic is licensed in a special practice and is available to work with other types of providers in your health care regime.

### **RESULTS**

The purpose of chiropractic services is to promote natural health through the reduction of the VSS or VSC. Since there are so many variables, it is difficult to predict the time schedule or efficacy of the chiropractic procedures. Sometimes the response is phenomenal.

In most cases there is a more gradual, but quite satisfactory response. Occasionally, the results are less than expected. Two or more similar conditions may respond differently to the same chiropractic care. Many medical failures find quick relief through chiropractic. In turn, we must admit that conditions that do not respond to chiropractic care may come under control or be helped through medical science. The fact is that the science of chiropractic and medicine may never be so exact as to provide definite answers to all problems. Both have made great strides in alleviating pain and controlling disease.

### **TO THE PATIENT**

Please discuss any questions or problems with the doctor before signing this statement of policy.

I have read, and understand the foregoing.

# CONSENT FOR USE OR DISCLOSURE OF HEALTH INFORMATION

## Our Privacy Pledge

We are very concerned with protecting your privacy. While the law requires us to give you this disclosure, please understand that we have, and always will, respect the privacy of your health information.

There are several circumstances in which we may have to use or disclose your health care information.

- We may have to disclose your health information to another healthcare provider or a hospital if it is necessary to refer you to them for the diagnosis, assessment, or treatment of your health condition.
- We may have to disclose your health information and billing records to another party if they are potentially responsible for the payment of your services.
- We may need to use your health information within our practice for quality control or other operational purposes.

We have a more complete notice that provides a detailed description of how your health information may be used or disclosed. You have the right to review that notice before you sign this consent form (164.520). We reserve the right to change our privacy practices; we will notify you in writing when you come in for treatment or by mail. Please feel free to call us any time for a copy of our privacy notices.

## Your right to limit uses or disclosures

You have the right to request that we do not disclose your health information to specific individuals, companies, or organizations. If you would like to place any restrictions on the use or disclosure of your health information, please let us know in writing. We are not required to agree to your restrictions. However, if we agree with your restrictions, the restriction is binding on us.

## Your right to revoke your authorization

You may revoke your consent to us at any time; however, your revocation must be in writing. We will not be able to honor your revocation request if we have already released your health information before we receive your request to revoke your authorization. If you were required to give your authorization as a condition of obtaining insurance, the insurance company may have a right to your health information if they decide to contest any of your claims.

I have read your consent policy and agree to its terms. I am also acknowledging that I have received a copy of this notice.

**ARIZONA SPORTS CHIROPRACTIC & WELLNESS CENTER**  
4550 E BELL ROAD BLDG. 6 STE. 152  
PHOENIX, AZ 85032

## MISSED APPOINTMENT POLICY

At Arizona Sports Chiropractic and Wellness Center, we are dedicated to providing the highest quality of treatment at the most affordable prices possible. When we schedule appointments, we set aside time and professional resources to meet the individual needs of our patients. This sometimes will mean that we need to bring in additional staff members at an added cost to the facility in order to ensure the quality of care that each patient receives while in our office. If you were to take a survey of other Chiropractic offices in the area, you would find that the amount of services we offer for the price we ask is an extreme value. However, when a patient fails to show up for an appointment, our valuable resources are idle. More importantly, a patient care opportunity is missed.

We understand that there are occasions when a patient must miss an appointment due to unforeseen circumstances or a scheduling conflict beyond his or her control. In this event, we ask that you call our office and reschedule your appointment. This courtesy allows our office staff to schedule another patient who is also in need of care or to appropriately adjust our staffing.

**Due to an increasing amount of “missed appointments”, we are having to become more strict on our office’s cancellation policies. Please sign below, acknowledging your understanding that you will be charged a \$25.00 missed appointment fee if you fail to give proper notice for cancelling your appointments.**

Again, I am committed to providing you with the best care possible at the most affordable prices. Helping us with this matter will ensure that we can continue to do that.
